

USE MASKS TO SLOW THE SPREAD OF COVID-19

Masks work best when everyone wears them, but not all masks provide the same protection.

MAKE SURE YOUR MASK FITS SNUGLY AGAINST YOUR FACE

Gaps can let air with respiratory droplets leak in and out around the edges of the mask

PICK A MASK WITH LAYERS TO KEEP YOUR DROPLETS IN AND OTHERS' OUT

A mask with layers will stop more respiratory droplets getting inside your mask or escaping from your mask if you are sick

Correct and consistent mask use is a critical step everyone can take to prevent getting and spreading COVID-19.
